Overview: Full Stack Engineer with 5+ years of experience designing and delivering scalable, cloud-native web applications. Proficient in Angular and React for building high-performance user interfaces, with strong backend expertise in Node.js and API architecture. Experienced in leveraging AWS and GCP to develop resilient, distributed systems and optimize application performance. Proven ability to drive end-to-end feature development, improve system efficiency, and collaborate with cross-functional teams to deliver reliable, business-impacting solutions in Agile environments.

PROFESSIONAL SUMMARY

2 years at Tata Consultancy Services (TCS) as a **Full Stack Engineer**, contributing to end-to-end development, deployment, and support of web applications.

Progressed into a **Technical Lead** role (6 months) at TCS, leading a small team, driving requirement gathering, and aligning technical solutions with business objectives.

Currently working as a **Full Stack Consultant** at **Deloitte (3+ years)**, specializing in modern web technologies, performance optimization, and delivering client-focused, scalable solutions in Agile environments.

CORE COMPETANCIES

Frontend Technologies: Angular, React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3

Backend Technologies: Node.js, NestJS, Express.js

Databases: MySQL, PostgreSQL

Cloud Platforms : Amazon Web Services (AWS), Google Cloud Platform (GCP)

Tools & Platforms: Git, Jenkins, Postman, AWS Console, Google Analytics, Katalon, VS Code

Methodologies: Agile, Scrum

WORK EXPERIENCE

Deloitte

June 2023 - present

Consultant - Full Stack Development

- Developed and delivered **10+ scalable modules/features** across multiple web applications using **Angular and React**, improving user engagement and usability.
- Built and maintained **30+ RESTful APIs** using **Node.js and Express**, enabling seamless frontend-backend communication.
- Optimized frontend performance, reducing page load time by up to 90%, significantly improving application responsiveness.
- Improved API response time by **30-40%** through backend optimizations and efficient data handling.
- Worked across cloud platforms (**AWS & GCP**) to support application deployment and backend workflows.
- Implemented **automated notification systems** using cloud-based schedulers and serverless functions for sending SMS and email alerts, reducing manual intervention and improving communication reliability.
- Leveraged **Google Analytics** to monitor user behavior and application usage, enabling data-driven improvements in user experience and feature adoption.
- Contributed to **CI/CD** and deployment improvements, reducing release turnaround time by ~25%.
- Achieved **85%+ test coverage** through unit and integration testing, improving code quality and reducing production issues
- Conducted 15+ code reviews, improving code quality and maintainability.
- Mentored 6 interns and junior developers, accelerating onboarding and team productivity.
- Participated in 5+ technical interviews for internal hiring.
- Resolved critical production issues, maintaining **high system stability** and uptime (**>99%**).

Tata Consultancy Services

January 2021 - May 2023

Full Stack Developer / Technical Lead

- Designed and developed **Angular-based web applications** from concept to deployment, ensuring scalable architecture.
- Followed best coding practices to build reusable, testable, and high-quality code.
- Conducted code reviews, debugging, and issue resolution to improve application stability.
- Implemented unit testing using **Karma and Jasmine** and developed automation scripts using **Katalon**.
- Created and maintained technical documentation, including workflows and user guides.
- Led client demo sessions, gathering feedback and driving continuous improvements.
- Actively participated in **Agile ceremonies** including sprint planning, stand-ups, reviews, and retrospectives.
- **Technologies**: Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, Java, SQL
- **Tools**: VS Code, Eclipse, Git, GitHub, Jenkins, Postman, Katalon

PROJECTS

Rail Transit Operations Management System

Contributed to the development of a large-scale transportation management system by building and enhancing frontend modules for real-time tracking and operational monitoring. Delivered improved efficiency and data visibility through interactive dashboards, seamless API integrations, and optimized UI performance for high-concurrency environments.

Operator Management System

Contributed as a Front-End Developer to a leading client's Operator Management System project, crafting intuitive user interfaces for real-time monitoring of operator activities. Developed interactive dashboards and visual tools to support operator onboarding and asset allocation.

Field Digitalization Application

Led the digital transformation of a renowned client's field application by reengineering workflows and integrating advanced technologies. Delivered enhanced operational insights and efficiency through innovative front-end solutions and strategic modernization.

Ultimatix - BeComply

Developed front-end components for TCS's internal Compliance Management tool, streamlining oversight of business processes across units. Designed user-centric interfaces to support stakeholders ranging from Unit Heads to the Admin Head and COO, enabling efficient tracking, reporting, and resolution of compliance activities.

BMS Portal

Designed and developed front-end modules for a Ticket Management System tailored to the BMS team at TCS, enabling efficient logging, tracking, and resolution of internal service requests.

AWARDS AND ACHIEVEMENTS

- Applause Award - Deloitte
- Client Centricity - Deloitte
- On the Spot Award - TCS
- Technical Excellence Award - TCS

BADGES AND CERTIFICATIONS

AI Generalist - Level 1 & 2

React JS - Great Learning

Micro Degree in Software Engineering Industrial Practice

ACADEMIC ACHIEVEMENTS

Master of Computer Application

2017 - 2020

Dr. APJ Abdul Kalam Technological University

*Completed MCA from **Vidya Academy of Science and Technology, Thrissur** with CGPA of 9*

Received Award of Excellence in Academics

Bachelor of Computer Application

2014 - 2017

University of Calicut

*Completed BCA from **Ansar Women's College, Thrissur** with an Aggregate of 83%*

Received Best Outgoing Student Award

Date : 01/03/2026

Place : Bangalore
